Integrated Facility Management

Risk & Compliance Management

Facilities risk management centers on identifying, mitigating, and monitoring threats that could disrupt operations, compromise safety, or lead to non-compliance. Key concerns include regulatory compliance, health and safety hazards, cybersecurity vulnerabilities, vendor and contract risks, and infrastructure failures. Arora Facilities Solutions can provide support by:

+ **Adhering to safety, environmental, and industry-specific regulations** to avoid legal penalties.
+ **Conducting risk assessments,** fire safety inspections, and emergency preparedness drills.
+ **Managing service agreements,** vendor compliance, and performance monitoring.
+ **Ensuring cybersecurity measures** for facility management systems and sensitive information.
+ Verifying **employee certifications**, training records, and adherence to labor laws.
+ **Maintaining accurate records** for audits, budgeting, and cost control.
+ **Implementing sustainability practices** to reduce ecological impact.
+ **Identifying vulnerabilities** in facility operations and implementing mitigation strategies.
+ **Ensuring proper coverage** for facility-related risks and incidents.
+ **Using compliance dashboards** to track adherence and improve accountability
