

Arora ATLAS® is an enterprise level suite of products that integrate seamlessly with IBM's Maximo® or Maximo Application Suite (MAS) Manage Enterprise Asset Management Software to simplify and enhance asset management through the convergence of asset data and location services. The mobile products are part of a single, easy to use application. Enable as many, or as few, as you need with the click of button. Available on phone, tablet, and computer for iOS, Android, and Windows.

Arora **ATLAS® Fix**

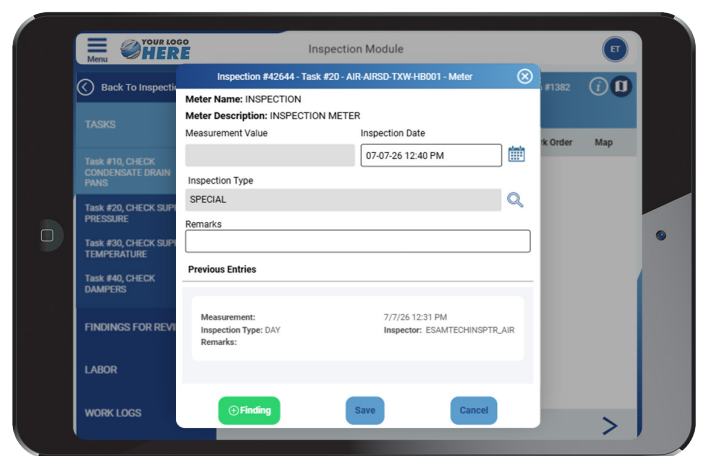

ATLAS Fix is a mobile work order solution with easy to use screens so technicians can focus on turning wrenches.

▲ ATLAS Fix User Interface

Arora **ATLAS® Inspect**

ATLAS Inspect is a mobile inspection solution that tracks checklist progress, observations, and resulting work orders to completion.

▲ ATLAS Inspect User Interface
