

Arora ATLAS® is an enterprise level suite of mobile products designed to simplify and enhance asset management and GIS Integration through the seamless convergence of asset data and real-time location services.

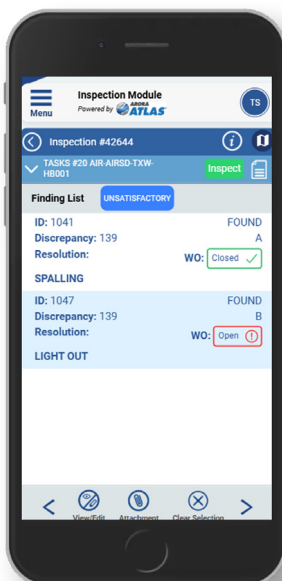

Features

- + Selectable GIS Map Layers and Building Levels
- + Dynamic Inspection Categories
- + Labor Actuals
- + Logs with voice to text capability
- + Inspection Findings and Work Order Creation
- + Automated Workflow
- + “Drop a Pin” Issue Locating
- + Embed Photos of Issues
- + Observations & History

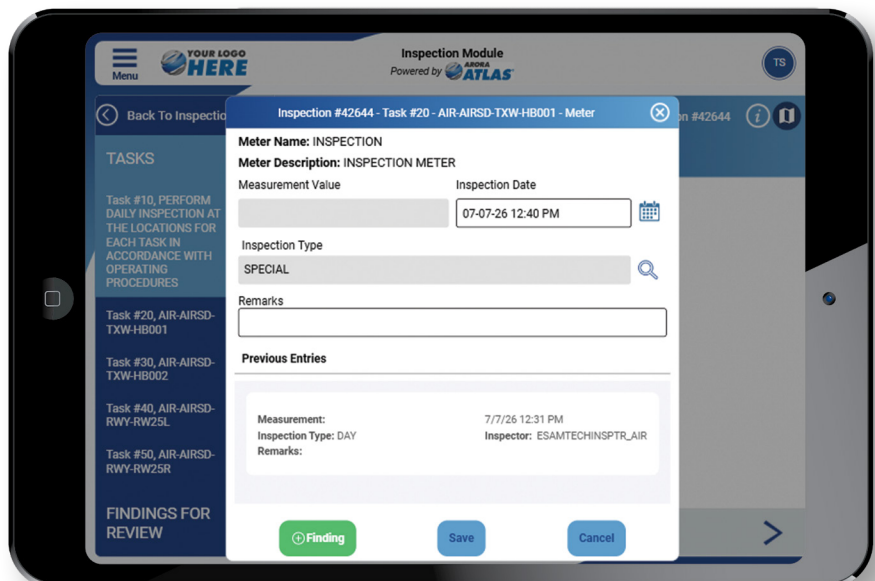

Arora ATLAS® Inspect is a Part 139 on-the-go mobile tool that enhances your inspections by enabling location services.

- + Provides a single inspection application for all parts of your organization
- + Integrates seamlessly with IBM's Maximo® or Maximo Application Suite (MAS) Manage Enterprise Asset Management Software
- + Displays locations requiring follow up work
- + Allows attachment of photos and field observations
- + Provides compliance with regulatory Part 139 inspection requirements
- + Allows assignment of individual or group inspections
- + Tracks various types of airfield inspections throughout the inspection period
